Лабораторная работа №4

Машков И. Е.

15 февраля 2026

Российский университет дружбы народов, Москва, Россия

Информация

- Машков Илья Евгеньевич
- Студент 3-го курса, группа НФИбд-02-23
- Российский университет дружбы народов
- 1132231984@pfur.ru
- <https://github.com/7S7eVe7N7>

Цель данной работы — установка и настройка GNS3 и сопутствующего программного обеспечения.

```
PS C:\Users\нокт> choco install gns3 -y
Chocolatey v2.6.0
3 validations performed. 2 success(es), 1 warning(s), and 0 error(s).

Validation Warnings:
- A pending system reboot request has been detected, however, this is
  being ignored due to the current Chocolatey configuration. If you
  want to halt when this occurs, then either set the global feature
  using:
    choco feature enable --name="exitOnRebootDetected"
  or pass the option --exit-when-reboot-detected.

Installing the following packages:
gns3
By installing, you accept licenses for the packages.
Downloading package from source 'https://community.chocolatey.org/api/v2/'
Progress: Downloading gns3 3.0.6... 100%

gns3 v3.0.6 [Approved]
gns3 package files install completed. Performing other installation steps.
Installing gns3...
```

 Setup Wizard?×

Server

Please choose how would like to run your GNS3 network simulations. The GNS3 VM option is strongly recommended on Windows and Mac OS X.

☒ **Run appliances in a virtual machine**
Requires to download and install the GNS3 VM (available for free)

☐ **Run appliances on my local computer**
A limited number of appliances like the Cisco IOS routers <= C7200 can be run

☐ **Run appliances on a remote server (advanced usage)**
The server will be on a remote computer and can be shared with multiple users

☐ Don't show this again

 New template

New template
Please select how you want to create a new template

☒ Install an appliance from the GNS3 server (recommended)

☐ Import an appliance file (.gns3a extension)

☐ Manually create a new template
